

TRAILER TYPE

DIMENSIONS/CAPACITY

Euroliners

These curtainsiders feature a sliding roof, sliding curtains, solid rear doors, 32 side boards and side gates. They allow for quick easy loading and discharges via the rear doors and open side access. Side posts can be moved from side to side to facilitate loading. Suitable for multi-collection and multi-delivery shipment.

Overall length	13.7m
Overall width	2.6m
Overall height	4m
Internal length	13.62m
Internal width	2.48m
Internal height	2.65m front, 2.75m rear
Tare	6,880 – 7,100kg
Design gross weight	39,000 – 41,000kg
Capacity	33 Euro pallets/26 UK standard pallets 87m ³

Mega (High Cube) trailers

Mega curtainsiders feature a massive 100m³ capacity. The larger internal height enables shippers to maximise consignment size whilst having the benefits of a straight frame loading bed. All trailers have easy loading and discharge via open side and rear door access including sliding and lifting roof. They are also equipped with 32 side boards.

Overall length	13.7m
Overall width	2.6m
Overall height	4m
Internal length	13.62m
Internal width	2.48m
Internal height	3.0m
Tare	7,400kg
Design gross weight	39,000kg
Capacity	33 Euro pallets/26 UK standard pallets 100m ³

DIMENSIONS/CAPACITY

Mesh trailers

Mesh trailers are the same as Euroliners with the difference that these trailers are equipped with strengthened tilts by the use of metal weaving in the tilts. These are used for the transportation of high value goods.

Overall length	13.7m
Overall width	2.6m
Overall height	4m
Internal length	13.62m
Internal width	2.48m
Internal height	2.65m front, 2.75m rear
Tare	7,100kg
Design gross weight	41,000kg
Capacity	33 Euro pallets/26 UK standard pallets 87m ³

Tautliners

These are similar to the Euroliners, with sliding roofs, sliding curtains and solid rear doors but do not have side gates or side boards. The Tautliner has all-round flexibility for loading and unloading from the rear, sides and overhead.

Overall length	13.7m
Overall width	2.6m
Overall height	4m
Internal length	13.62m
Internal width	2.48m
Internal height	2.65m front, 2.75m rear
Tare	6,700 – 6,800kg
Design gross weight	39,000kg
Capacity	33 Euro pallets/26 UK standard pallets 87m ³

Intermodal reefer containers

These 45ft intermodal containers for temperature controlled products can cover temperatures between -25°C to +25°C and are equipped with GPS tracking systems. Environmentally friendlier option and a competitive alternative to conventional road transport.

Overall length	14.0m
Overall width	2.55m
Overall height	2.9m
Internal length	13.27m
Internal width	2.43m
Internal height	2.56m
Tare	6,800kg
Design gross weight	34,000kg
Capacity	33 Euro pallets/26 UK standard pallets 83.1m ³

Intermodal box containers

These 45ft pallet wide intermodal containers are designed for long distance destinations connected to rail networks where large volume commodities need to be shipped by the most cost-effective and secure means.

Overall length	13.6m
Overall width	2.5m
Overall height	2.9m
Internal length	13.57m
Internal width	2.44m
Internal height	2.7m
Tare	4,450kg – 4,550kg
Design gross weight	34,000kg
Capacity	33 Euro pallets/26 UK standard pallets 90m ³
